

DREAM ON...

Dream Until Your Dreams Come True

Ryan Kershaw is an international music coach and successful performer from New Zealand with a unique perspective on student leadership. He incorporates his incredible musical talent with a power message that motivates students to lead the pack by authentically following their dreams. With both his poignant true- life stories and original live tunes, he speaks and performs directly to the heart of students , encouraging and motivating them to use their independence and initiative to self-manage and to self- motivate campus groups in order to create the on-campus experience and ideal lifestyle they've dreamed of. Without the crowd there is no show- and Ryan's real-life tools for positively affecting, inspiring and involving other students reveals that the path to true fulfillment is discovered by engaging others in the journey. Ryan is the 2012 recipient of the Music Manger's Forum Mentoring Success Award, and is the author of the worlds first book to combine personal growth with guitar tuition, *Use Your Buzz to Play the Guitar*.

Ryan Kershaw brings a unique and entertaining approach to student campus leadership that makes Ryan a MUST HAVE for every campus!

"We're very pleased to have Ryan as a member of Independent Music New Zealand. He is very motivated to achieve his goals, and always keen to share any of his knowledge to help others. The Underground Festival is a great example of this; his projects are not simply aimed at furthering his career, but to create opportunities for others".

Renee Jones - Operations Manager
for Independent Music New Zealand
